

I am Tusher. My full name is Tanjirul Alam Tusher and my nickname is Tusher. I live in Dhaka, Bangladesh. Currently I am studying CSE in Northern University Bangladesh. My hobby is photography. I am an AI researcher. My journey in Artificial Intelligence drives my curiosity, focusing on machine learning and deep learning research. I am a problem solver in the world of competitive programming. Besides, I am dedicated to harnessing AI's potential to positively impact society. My interests extend into Deep learning, Natural Language Processing (NLP) and Generative AI, where I aim to innovate and create meaningful applications. Proficient in Python, I have skills in leveraging TensorFlow, Keras, and Scikit-Learn for machine learning projects. I also command languages such as C, C++, Java, Dart, and MySQL, complementing my versatile skill set across software development and data analysis domains. My my contract details is here:
